RE: A1,P2 Site Preparation  
Approval

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Area 1, Phase II (A1,P2) site preparation work plan package.

The work plan package details activities as part of the A1,P2 remediation. The document is technically adequate and consistent with other site documents. However, there is an overall concern regarding ability of U.S. DOE to manage surface/storm water across the site, with several on-going remedial projects in addition to A1,P2.

U.S. EPA approves the A1,P2 site preparation package, but requests a meeting to discuss surface water and storm water management issues in late July or early August.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
